

EXAM C (CAS 4) SUGGESTED STUDY SCHEDULE

November 2009 Exam

The CBT test dates for Exam C (CAS 4) are November 3-9, 2009. This schedule has been created to allow time for a thorough coverage of the exam topics to be completed by mid October. The final few weeks of intensive review should focus on working as many examples as possible to build up speed, accuracy, formula memorization and problem-type identification. In the schedule below, references are made to topics reviewed in the ACTEX Exam C Study Manual prepared by Prof. S. Broverman, and references are also made to the exam catalog reference, LM3 - Loss Models Book 3rd Edition.

Week	Topics to Cover	Suggested Time
Beginning		
	MODELING	
Jul 27	ACTEX Sections 1 to 4, LM3 Chapters 2 and 3	12 hr.
	ACTEX Sections 5 and 6, LM3 Chapters 3, 4 and 5	6 hr.
